How to Attach the Tension Arm

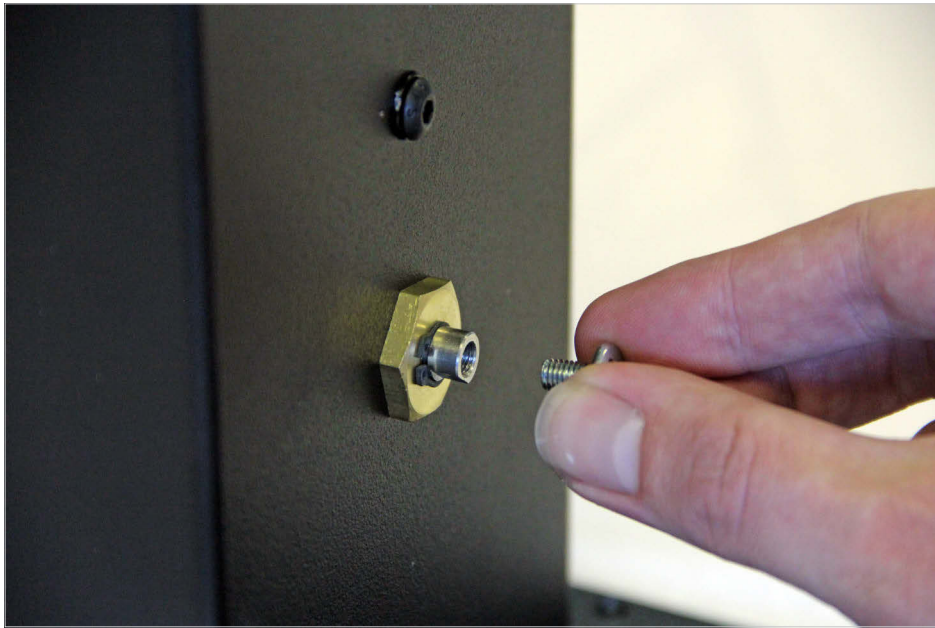

At the front of the rewinder there are two shafts: the top one is for the main rewinder spindle and the lower one is for the tension arm.

TOSHIBA UR-800-TA HOW TO ASSEMBLE

To attach the tension arm, unscrew the large screw on the tension arm shaft.

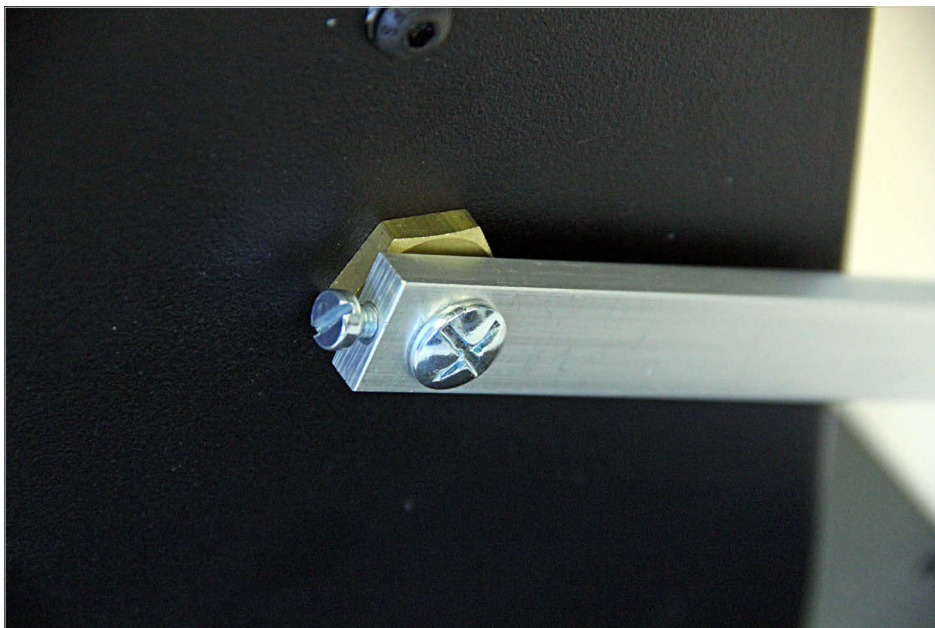

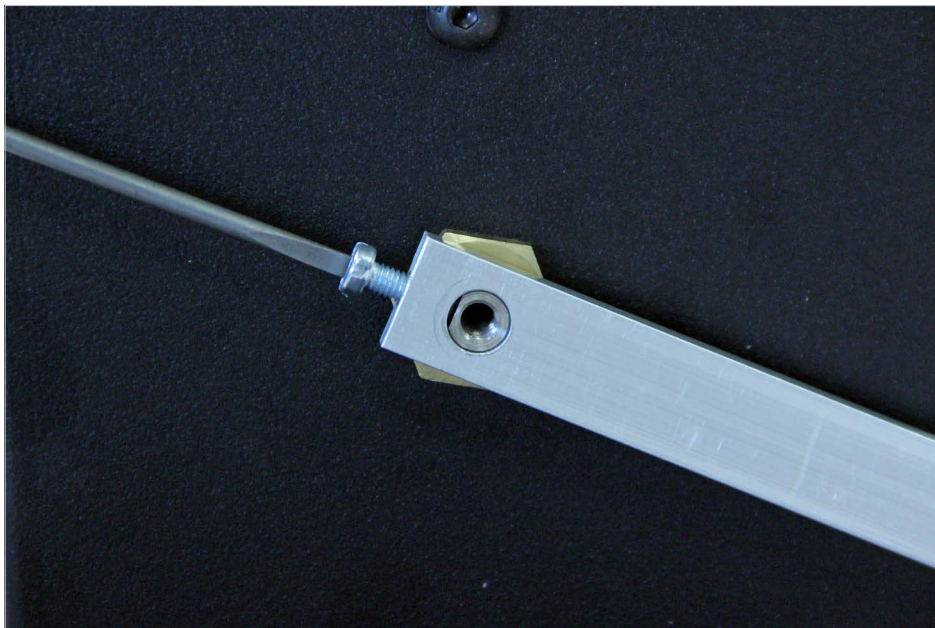

Push the tension arm onto the shaft and make sure that the flat edge aligns with the screw at the end of tension arm.

TOSHIBA UR-800-TA HOW TO ASSEMBLE

Tighten the screw at the end of the tension arm. Re-insert the main screw and tighten until the arm is held firmly.

HOW TO ASSEMBLE

How to Attach the Rewind Spindle

Push the rear guide disc onto the end of the main spindle and align the screw with the hole.

Slide the guide disc so the screw is over the hole and tighten the screw to secure in place. Push the main spindle onto the top shaft as far as it will go.

TOSHIBA UR-800-TA HOW TO ASSEMBLE

The rewinder is now ready to use.
